

AOX-LITE Antioxidant Alkaline Water Purifier & AOX TT TAP

Benefits

AOX ionises your water through the generous infusion of hydrogen, oxygen and negatively charged ions. This gives your water millions of powerful antioxidants which is highly effective in removing free radicals (the leading causes for cancer, diabetes, hypertension, hypotension & gout). Antioxidants works just like Vitamin C! They strengthen your immunity system and promote anti-aging, keeping you looking and feeling fresh and youthful.

AOX reduces your water molecules into smaller clusters, allowing your body to hydrate more efficiently than through drinking normal water. It also boosts your body's absorption rate of nutrients and essential minerals.

AOX alkalises your water, making it capable of restoring pH balance in your body and flushing acidic metabolites and toxins in the cellular level.

AOX mineralizes your water with health-sustaining minerals such as calcium, potassium, magnesium, sodium and silica to promote healthy cells, bones, joints, organs and skin. (Presence of minerals has been tested by HSA Singapore.)

AOX removes dust, sand, rust and other forms of sediments in your water. AOX removes harmful chemicals and cancer causing substances such as chlorine, THM, pesticides and carcinogens. It also eradicates odour in your water, making it smell and taste great!

No Water Wastage!
No Harmful Ionising Radiation!
No Risk of Rusty Electrolysis Plates!
AOX uses 100% Natural Bio-Minerals!
SGS Lab, AVA, WHO, FDA and KFDA
TESTED 100% SAFE!

Complete Purifying, Antioxidant and Alkaline Filter System

F12-U: 1 Micron Sediment Carbon Block Filter

Filters sediments such as rust, particles, sand and lead in the water. It removes organic chemical substances such as chlorine, detergent, THM, pigment and carcinogens. Hence, it alone acts like a 2-Stage Sediment/Carbon filter. Foul smell is also eliminated, leaving fresh tasting water for your consumption.

F3-U: AOX Antioxidant Alkaline Minerals Filter

Makes the water alkaline and antioxidant in nature. It supplies essential minerals such as calcium, potassium, magnesium, sodium and silica to promote healthy cells, bones, joints, organs and skin. Furthermore, it decreases the size of water molecule clusters.

F4-U: Post Activated Carbon Filter with KDF-55

Made of high-grade granulated activated carbon and KDF-55 for the elimination of algae and fungi, controlling bacteria growth. It also removes chlorine, pesticides and other organic compounds, eradicating unpleasant taste and odour

Special Features & Specifications

Counter top with 4-Stage filtration process.

Blue LED Light

The built-in sensor detects the water flow to turn on the Blue LED light. It does not require 13A power point. The Blue LED Light is powered by AA Size Batteries.

AOX TT Tap (Winner of Singapore Good Design Award)

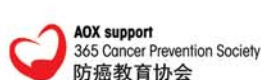

The AOX TT Tap features a beautiful stainless steel construct with a heavy, solid base able to withstand heavy usage. Its weight ensures stability that prevents accidental and possibly destructive topples in the kitchen. Moreover, it requires absolutely no drilling during installation that existing taps need.

However, what truly makes the AOX TT Tap an impressive innovation is its flexibility and adaptability! With three metres of tubing attached, the stable-based AOX TT Tap can be brought about and set anywhere around the kitchen.

Flow Rate: 90-120 (Liter/hr)
Pressure: 20 (PSI)
Power: 1.5V x 2 AA Size Batteries
Dimension: W35 x B13 x H35 cm
Weight: 5 kg

Made in Korea.
