AO+ SKINCARE ROSE QUARTZ ROLLER

Hand-carved to help aid in the absorption of treatments into the skin, minimizes the appearance of puffiness and signs of aging. This dual-sided tool can be used throughout all face and neck areas to maximize your daily skincare regime.

Every piece is unique, with a slight variation. It's hand-crafted from natural materials packed with a cocktail of minerals, including Magnesium, Sodium, Silica, Iron, and Oxygen, allowing the refreshing stone to work smoothly alongside serums and oils.

Soothes the skin

The crystal emits a vibration that releases tension, calms inflammation, and encourages cell restoration.

Helps with puffiness

The rolling technique doubles as a lymphatic drainage massage, improving blood circulation and encouraging oxygen to penetrate deep into the skin layers. This helps release any trapped toxins as well as stimulating collagen production.

Banishes dark circles

The rose quartz soothes wrinkles and improves the skin's elasticity, giving your complexion a luminous glow.

Directions of use

The Rose Quartz roller is simple to use. For ultimate skin healing and rejuvenation, follow up your facial massage with the application of your favorite cream, serum, or AO+ Ozonated Olive Oil.

Using the wide end, start at the jawline, massage in an outward direction to assist the puffiness across the face and neck.

Using the narrow end, massage around the eye area to assist with fine lines and wrinkles.

For enhanced relaxation, store the roller in the fridge. This extra step will help to increase circulation, stimulate collagen production, and bring down unwanted puffiness.
